

Careers Information, Advice and Guidance

CXK have a team of Level 6 qualified careers advisers who have a wealth of experience in delivering careers information, advice, and guidance to students across schools in the South East. They are highly skilled in engaging with young people and providing independent and impartial advice and guidance.

We offer a range of different services to support your students and to help your school to deliver a high-quality careers programme, including the statutory duty to provide personal guidance in line with Gatsby Benchmark 8.

Type of support	Duration and number of sessions/days	Cost	Summary
Personal Guidance - Career Interviews 1:1 session with individual careers action plan.	45-60 minutes 5-6 sessions per day 3 sessions per half day	£250/day £180/ half day	Full interviews of 45 – 60 minutes are regarded as best practice by the Careers and Enterprise Company and the HESCU. They allow time for advisers to fully support the student to explore potential career pathways, provide challenge and develop a comprehensive action plan with the student. Personal guidance by a Level 6 qualified adviser is a key requirement for Gatsby Benchmark 8.
Personal Guidance - Career Meetings 1:1 session with brief actions agreed.	30 minutes 8 sessions per day 4 sessions per half day	£250/day £180/ half day	In some circumstances 30-minute meetings may be more appropriate. This could be because a student has: <ul style="list-style-type: none"> - multiple career interventions (within or across years). - has specific needs which are met by shorter meetings. The adviser and student will agree key actions during the meeting

			which will be noted down for the student to take away (or emailed later).
Group Guidance – Career session	45-60 minutes 5-6 sessions per day 3 sessions per half day	£250/day £180/ half day	Students meet in groups of no more than four, for a facilitated personal guidance group session, which encourages group learning and reflection. The sessions are delivered within the CDI guidelines for best practice and can be used alongside the above interventions to meet the needs of the students as part of a wider careers programme.
Group work, Presentation or Extended Assembly	60 minutes	*see info below	A variety of group work, presentations and assemblies are available. Covering Year 9, Post 16, Post 18 options, Work Based Options, Higher Education and Student Finance to name but a few. Bespoke sessions are available on request.
Parents Evenings or Options Evenings	Up to 3 hours	£165	Support at evening events as required for personal guidance by appointment or drop-in basis, depending on the needs of the event.

** ½ day is calculated for preparation followed by one activity such as a group work (of 45-60 minutes). Any additional group works after this, can be delivered as per the timings of full guidance sessions above. (i.e., 1 session is £180, 4 sessions are £250, 11 sessions are £500).*

A one-off career appointment can be purchased by parents/carers or schools for individual students. These would be delivered remotely and costs £60 for a full guidance interview with action plan. There may be additional costs for “in person” delivery depending on location.
